

## **Pediatric Resources for Professionals**

*While by no means a definitive list, these are some of the resources recommended by members of the Children's Project on Palliative/Hospice Services (ChiPPS).*

*ChiPPS is a group of professionals who are working together to enhance the science, practice, and availability of pediatric palliative and hospice care. Since its inception in 1998, ChiPPS has made valuable contributions to the field, including the development of educational materials that can help organizations serve the needs of children more effectively. In addition to these resources, visit the ChiPPS section of NHPCO's Web site: [www.nhpc.org/pediatrics](http://www.nhpc.org/pediatrics).*
