Our Shared Vision:
A world where individuals and families facing serious illness, death, and grief will experience the best that humankind can offer.
It has been an exciting time at NHPCO and our family of affiliated organizations. This past year, in particular, has seen a number of significant events and transitions that we are proud to briefly outline in this report.

Most notably, we honored J. Donald Schumacher as he retired after more than four decades of service on behalf of hospice and palliative care at the community provider level as well as in national and international leadership roles. The year 2017 welcomed new board leadership under NHPCO Chair Jan Jones, HAN Chair Norman McRae and the tenure of our new President and CEO Edo Banach.

At NHPCO, we saw an expansion of resources focused on community-based palliative care, an entirely new professional development experience, *The Intensives*, was conceived and hosted in Florida. The Hospice Action Network held another successful Advocacy Intensive and sponsored a Congressional Briefing where five members of Congress and noted physician Atul Gawande spoke on behalf of care planning and end-of-life care. Global Partners in Care transitioned to a new home with the Hospice Foundation in Indiana where it will certainly flourish.

So, while there are transitions to note in the past year, opportunities ahead of our family of organizations and the broader provider community are ahead of us. This report only offers representative accomplishments; we encourage you to visit our websites for more comprehensive information on each of our organizations.

To all our members, supporters and collaborators, we extend our grateful appreciation for the work we share and all that we have accomplished together.

Thank you!
