

# Sample Policies

## NHPCO Medical Aid in Dying Resource Series

10/10/2021

The following are sample policies articulating the range of options outlined in the PowerPoint presentation on Developing Policy for MAID. These samples are based on actual policies from a variety of facility and service types, but “anonymized.” They were used in a statewide training in Colorado, conducted in 2017 by The Iris Project, after the Colorado End-of-Life Options Act was passed. As such, they reflect particularities of the Colorado Act which may or may not be relevant in your state. **Always consult with corporate legal counsel before finalizing any policy.** The samples are provided here courtesy of Jennifer Moore Ballentine.
